

## tank guardian™ PRIMARY SCREEN

**Product:** Tank Screens

**Code:** TASS20 - Standard 8"  
TASS06 - Standard 12"  
TATS01 - Standard 16"

### Product

Unless rainwater enters the tank / cistern through pipes that are connected directly to the top or side of the tank, you must ensure all water passes through a tank screen at tank entry point. The tank screen must include a non-corrosive screen of not more than 3/64" to keep mosquitoes and pests out.

### Features and Benefits

- Mosquito proof 316 stainless steel mesh and 1/32" aperture.
- Manufactured from UV stabilized polypropylene.

Standard 8" Tank Screen

Standard 12" Tank Screen

Standard 16" Tank Screen

### Maximise Catchment Efficiency

- Rain Heads fitted at each downspout that supplies water to the tank to filter out leaves and debris.
- First Flush Water Diverters fitted 'upstream' of the tank screen to optimize water quality.
- The Tank Screen should provide the final point of protection not the only barrier for leaves, debris and pests.
- Tank Screen Covers can also be used to capture any splash from increased flow into the tank.
